EDUCATION

Thapar Institute of Engineering and Technology

B.Tech in Computer Engineering CGPA: 8.61

Patiala, Punjab

Aug. 2023 – Aug. 2027

Doon International School

Class X – 94.6% — Class XII – 92.4%

Dehradun, Uttarakhand

2020 – 2022

PROJECTS

Bosch Profit Diagnostic | SQL, Excel, Power BI, Python (Pandas)

August 2026

- Diagnosed Bosch's profit paradox by analyzing why revenue increased from €82B to €96B while operating profit declined from €11B to €5B, using hypothesis-driven business analysis and KPI decomposition.
- Performed SQL (GROUP BY, JOIN) and pivot-based analysis to evaluate profitability across regions and product categories, identifying raw-material inflation, logistics costs, and discounting as the primary drivers of margin erosion.

Driver Drowsiness Detection | Python, TensorFlow/Keras, NumPy, Scikit-learn

Oct. 2025

- Analyzed a **66K+ image dataset** (NTHU Driver Drowsiness Dataset) to evaluate model performance and validate prediction reliability, achieving **91.34% validation accuracy**.
- Preprocessed and structured image data using OpenCV and NumPy, then benchmarked results across 4+ Scikit-learn evaluation metrics to assess model robustness and reduce false-negative risk.
- Built a real-time webcam-based monitoring pipeline, translating model outputs into interpretable, actionable alerts.

PrepForge | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, JWT

Apr. 2026

- Developed a full-stack placement preparation platform that enables students to track 400+ DSA problems, prepare core CS subjects, and monitor interview readiness.
- Designed a responsive dashboard using React.js and Tailwind CSS with 8+ reusable components, progress analytics, and personalized learning insights.

POSITION OF RESPONSIBILITY / INTERNSHIPS

Web Development Trainee

Jun. 2026

Epic Global Digital Solutions Pvt. Ltd.

Noida, Uttar Pradesh

- Applied 5+ full-stack web development concepts using the MERN stack through hands-on, project-based training.
- Built 15+ REST API endpoints and 8+ UI components using React.js, Node.js, Express.js, MongoDB, and Git, directly applying these skills to develop the full-stack project **PrepForge**.

Josh Welfare Society (NGO)

Jul. 2025

- Mentored 50+ students through subject teaching and personalized academic guidance.
- Conducted substance-abuse awareness campaigns across 5 government schools and participated in 5+ community outreach programs, strengthening leadership, communication, and teamwork skills.

PROFESSIONAL TRAINING & CERTIFICATIONS

The Complete Full-Stack Web Development Bootcamp

2025

Sigma 8.0 – Apna College

- Completed a 4-month full-stack web development training program covering front-end and back-end development.
- Built a full-stack application with 5+ features using modern development practices and RESTful API integration.

TECHNICAL SKILLS

Analytics: MS Excel, SQL, Python (Pandas, NumPy, Scikit-learn), R, MATLAB

Business Tools: Power BI, MS Office, Git, GitHub

Methods: Process improvement, root-cause analysis, forecasting, scenario & sensitivity analysis, stakeholder presentation

Programming & Web: JavaScript, React.js, Node.js, MongoDB, MySQL

Focus Areas: Finance & Trading, AI/LLM Integration (LangChain, LangGraph)
